A TECHNOLOGY OF

Evolution is the paperless workflow solution for healthcare.

The healthcare industry has called upon information technology to help create efficiency through improved workflows. Access Evolution was designed with workflow efficiency and enhanced data access in mind, knowing that both have enormous impact on the quality of patient care as well as the financial health of the care providers.

Access Evolution is the next generation in electronic forms.

Introducing Evolution from Access e-Forms, a leader in electronic forms for the healthcare industry. Evolution is the next generation in electronic forms. It will revolutionize the way you work. Evolution provides a truly paperless workflow environment for the paper intensive healthcare industry.

At Access e-Forms we have listened to the needs of industry. The result is a software solution that connects both your people and your data to improve your workflow process. From input to retrieval to data management, Evolution alleviates the paper shuffle while keeping processes flowing accurately and securely across the enterprise.

Simply put, Evolution will revolutionize the way you work in a truly paperless environment.

Access Evolution fits in and increases operational efficiency.

The benefits of Evolution when combined with your current healthcare information system (HIS) are numerous. Evolution will help you to reduce your administrative costs by accelerating form and document-based business processes. All the while, Evolution keeps people connected and content moving throughout the distributed enterprise.

With Evolution, there's no need to change the way you work. It is built to suit your unique business' policies and procedures. Both flexible and secure, Evolution incorporates sophisticated security capabilities to enhance the accuracy and protection of your data. What's more Evolution allows nearly universal connectivity to any open database.

In combination with your current HIS, Evolution delivers significant cost savings and increased customer satisfaction.

Advantages of integrating Evolution.

The advantages of integrating Evolution into your present HIS:

- Web-based access – fill out forms online
- No client software required – works with Web browser
- Intelligent workflow replicates your policies and procedures alleviating manual processes
- No limitations – enterprise licensing for unlimited users of both public or private forms
- Incorporates both clinical and business workflow processes
- Data and forms are truly portable and readily accessible
- Connect people and data utilizing intelligent workflow
- Forms can be built easily to match their printed counterpart
- Point-to-point routings automatically, electronically
- Sign forms electronically, securely
- Archive documents directly into your imaging system

Ask your Access e-Forms sales representative for more detailed information.

Your business will grow with Access Evolution.

Evolution is a complete software solution from a company you can trust. Access e-Forms has been delivering leading edge products to enhance healthcare information systems for over seven years. Since inception, Access e-Forms has provided healthcare professionals with toolsets to build customized software solutions.

We began with our Patient Flow System (PFS) that allows you to prepare hospital documents exactly the way you want, and distribute them to any point for printing, faxing, e-mailing and archiving. We followed PFS with the e-Forms Repository which provides robust document management functionality and easy print-on-demand capabilities for the clinical areas, as well as comprehensive downtime patient registration features.

Both products were key to developing our newest toolset, Access Evolution—the truly paperless workflow solution.

Your paperless environment awaits.

Access Evolution is the next logical step in forms automation—the development of a truly paperless environment for hospital clinicians and administrators. Moving from pre-printed and electronic forms to a forms-driven but totally paperless solution is as easy as Access Evolution. Our newest system gives you the ability to generate the form online, sign it online and write it directly to imaging, thereby keeping the entire process paperless, out of the shredder, and into a HIPAA-compliant solution.
